“ Alex was a grate man. Not many people can say they was grate but alex made it look easy. When we 1st meet there was no way we was going to get along never mind be friends. And we ended up being best friends. Alex was more then a friend. He was truly my Brother. It was a honor to know such a grate man. If I could be like him for just a day I would give anything to have one more day with him. So I could tell him what a honor it was to be his friend. This man sat on my bed from 7am until 7pm every day when I got hurt. He made sure I made every appointment for my doctor. Made sure I ate, took my meds. Helped me use the rest room and even helped me get in the shower. And he did this 7 days a week for a year. Until I was able to get up and walk on my own. Without him I would not even be here today. Alex loved working on cars. That was his real passion we built so many cars from the frame up and enjoyed everyone of them. I can remember when I got stationed here in crestview fl alex, Ronnie, Marcus, Amy, my wife and me drove my fleet of cars. We had a huge 7 car convoy to Florida from Fayetteville. That was a trip to never forget. He was my best man at my wedding and was The Godfather to both my boys. Tyler and Taylor. I miss you so much man. I truly hope you are at peace and look down on us and see how much we truly miss you. Love you bro. RIP Alex.
