“ As another year approaches - I think of you daily. I remember how you worked so hard as a 12 year old with Mr. Hollis in tobacco. You had a job with granddaddy at a young age. I use to think you were rich! You had it made to me. You stood in the gap after granddaddy passed on. You protected me in high school and in life. It was Samp - Nita -Monique and this is different but we are somehow making it. As asked - your memory hasn't been re-missed. I have something for you every year - big or small - just as we talked on your last week of life. A best brother to his two sisters in deed. We had some good times an I can't post them - because I'm left behind to get in trouble - so it will still be well kept. I love you forever and I miss me some you!!!
