“ Bruce was a good person. Went into hosp w/buttock and leg inf. Was held by hosp staff for 2 12 mos. He told me every day for over a month he was ready to go home Colorado. Felt good lumberton unc hosp refused to let him go. Went for several weeks no iv then rec'd meds to take his life. I as power of attorney for him asked them to stop this med as side effects were no pulse, lung collapse, heart stop
I was kicked out for asking them to stop meds ,unneeded. Two days later he was deceased. They did everything they could to stop he and I from speaking to each
Other for 2 mos They refused to transfer him to va claimed he was ready for discharge. Took his life instead
He wanted to go home to colorado. Find out state hosp has legL immunity.
