“ *My Condolences & Prayers 2 My Entire Family. There's so many great memories I have & hold so close & dear. If ever in his presence U could look forward to uncontrollable laughter with him just talking being himself & was full of wisdom & knowledge. After becoming blind there was so many teachable moments by being on the other side that I genuinely thanked him for plus will always remember. I made my last phone call to U early morning but U couldn't answer because little that I knew, U were in your moments of transitioning from life to rest. 🕊️ RIP My Smart/Genius, Funny/Crazy Cousin, Quote of Your Mother "Her Baby".
