Tribute Wall

YN

“ Hello auntie, I think about you often, I remember the life lessons you taught me the wisdom you have me. I thank you and I love you. I feel like your still here with me guiding me. Whenever I have a problem I think about what you have taught me. I share your advise with others too. I do wish I would have shared even more with you, my problems, my thoughts so that you could have guided me even more. Until we meet again I love you and enjoy heaven because now you have your little family together again.
