“ *Ms. Gwen you will truly be missed by all. Some people come into our lives, leave footprints on our hearts, and we are never the same. I love you for so many reasons the most important by far is for trusting me with two of your most valuable possessions (Yalonda and NyAshia). My promise to you still stands, I'll take care of them. Your life was a blessing, your memory a treasure. You are loved beyond words and already missed beyond measure. My prayer for the family is that may the sorrow you feel in your heart be lightened by the love that surrounds you.*

“ Funeral speech

1st I would like to give gratitude and honor to the creator god. God knew exactly when to place this women in my life when god knew I needed her the most.

2nd I would like to thank my biological mom Shanda for trusting god to send her such a selfless individual to help nourish and heal her child to life.

If most don't know we are actually cousins my great grandmother Mary bell and Gwen's mom were sisters. I was a premie and my mom knew she needed help and my godma was right there by her side and said give her here she gone be alright (this probably not verbatim but it was something to that nature)

So last but certainly not least I would like to thank her my godmother . Everyone knows she loves her some Londa or pooh but .

She has been everything I needed her to be plus more As a cousin a godmother and even as a grandma To her bookie Ny'Ashia

*She has taught me how to be selfless
She has taught me how to be strong
She has taught me how to stand in in someone's time of need
She taught me to love my daughter unconditionally because that is what she did for me.*

*She taught me how to drive
I remember wanting all the Disney books and she bought them and her and my god dad taught me how to read*

*The main thing she didn't teach me was how to live without her.
Because she taught me that I could depend on her no matter what .*

And in this moment I know that she would be the one I could depend on if it was some one else in that casket .

Thank you . I love you

“ There’s so much I can say that I don’t know where to begin. Aunt Gwen, u help raise me and I’m so grateful for that. If I never said it, I’m saying it now. Thank you for all the times you took me in and thank you for genuinely loving me. Now Here’s a confession, well maybe you always known idk lol. Now everybody who knows me knows that I’ve always been a picky eater. Well, auntie back then when you use to make me sit at the table telling me you ain’t getting up til you finish. I use to get yalonda to eat it, and when that didn’t work I’d wrap it up in a paper towel then trash it. There I said it, it’s out! Out of all the yrs and all the memories, my favorite was being a teenager I’d still sleep with you and we would watch the Andy Griffith show till we fall asleep. Auntie, this 1 hit us all hard. We surely weren’t ready for this, but I guess god needed his angel. R.I. P queen
